

SPECIALTY VEHICLE RESTRAINTS

OFF ROAD WORK VEHICLES

SHIELD 
Trusted. Everywhere.

SAFETY AND SATISFACTION GO HAND IN HAND.

Just like you, SHIELD cares deeply about the safety of your customers. That's why all of the more than 15 million restraints we make each year are rigorously engineered for outstanding reliability.

SHIELD is proud to be the industry leader in occupant safety systems for tractors, loaders, lift trucks and other off-road work vehicles. We understand that long hours on the farm, the construction site, or in the warehouse require seatbelts that work with the seats to maximize operator comfort.

- Our retractors operate smoothly, lock when they should, and can be tuned to the specific characteristics of each vehicle
- Our anti-cinching solutions can stand up to the roughest terrain
- And our buckles are easy to grip with gloved hands, and can be configured with a variety of electric switch options.

PUT OUR EXPERTISE TO WORK FOR YOU AND YOUR CUSTOMERS.

Our global team of expert designers and engineers is ready to provide you with a custom solution that exceeds your expectations for performance, value and service. Contact your regional SHIELD office or visit trustshield.com today.

**SHIELD products enhance
your protection comfortably
—the whole day long.**

TRUST. It's what we earn every day by combining practical innovation with exceptional performance and value. The world's top vehicle manufacturers, seating providers and aftermarket distributors all trust SHIELD for specialty vehicle restraints.

Emergency Locking Retractors
